EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claims 8 and 9, line 1, "claim 1" has been corrected to -- claim 7 -- because the original number is clearly a typo.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: many Theurer's prior patents, such as '810, '868 and '037, disclose tamping machines; wherein, each is provided with a self-propelled sub-frame or a sub-frame with a unit motive drive for displacement relative to the main machine frame. However, the prior art of record does not teach an acceleration drive with specific features arranged to operate with the sub-frame, in the manners as recited in instant independent method and apparatus claims 1-4 and 7. Accordingly, independent claims 1-4 and 7 along with dependent claims 5-6 and 8-9 are considered to be defined over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
